- Cowboy Bebop  x

**Add Something**

MVP Features:

- User can add movie/show titles to a "want to watch" and/or a "watched" list
- User can delete items from lists
- User can view both lists at the same time and see changes to the lists
  as they happen

Potential Add-ons:

- Clicking a title on the "want to watch" list moves it to the "watched" list
- A recommendations list so users can add titles that have been
  recommended to them but that they're not sure they want to watch yet
- Add functionality to include which streaming service the title is on
- Add ability to log in so user can save lists
